

Networking the Educational World: Across Boundaries for Community-building

NEW ABC is working to deliver nine pilot actions to enhance the inclusion of immigrant children and young people in education; they will be co-designed by all the involved stakeholders, including children.

By relying on the whole-child, Participatory Action Research and bottom-up approaches, NEW ABC will enable and empower children and young people to become the true actors of change, and will attain an effective and sustainable process of co-participated creation and implementation of new good practices for their inclusion through formal, non-formal and informal learning.
